

The Maple Springs Foundation is proud to host an antique tractor show and rodeo, which will be held this fall on October 13th, 14th, and 15th. This show and rodeo is located on 5063 Country Club Road, between Longview and Hallsville.

To qualify as an antique tractor, it must have been built prior to 1960.

The tractor brought farming from a horse and mule production to a motorized production, enabling farmers to obtain greater crop yield by planting many more acres, and with a much reduced cost per acre. The tractor also significantly reduced the amount of time and the manpower required to harvest their crop.

The rodeo will consist of several competitions in which drivers' can demonstrate his/her driving and handling skills, which could qualify them for the coveted 1st, 2nd, or 3rd place ribbons.
